JadeNail

Bottle of 12 ml

Oil rich in herbal active ingredients to obtain healthy nails and to get rid of mycosis

Action of JadeNail:

The nail is a keratin plaque made of: for its visible part:

- lunula, pinkish area, free edge
- for its hidden part: matrix, starting layer

Composition:

Olea Europaea Fruit Oil, Allium Cepa Bulb Extract, Juglans Regia Shell Extract, Melaleuca Alternifolia Leaf Oil, Limonene, Linalool.

Instructions:

JadeNail nurtures the nail and provides the elements necessary to strengthen its structure starting from the matrix. Apply on the nails and let permeate for 10 minutes, wipe dry do not wash.

JadeNail is also an anti-fungal (anti-mycotic) product, it efficiently treat mycosis and other conditions caused by microscopic fungus (mushrooms).

JadeNail should be used in the following situations:

- mycosis and fungus related conditions
- grooved or ridged nails
(due to aging, menopause, dermatological problems)
- transversal grooves (sickness, crushing of the matrix)
- dry or brittle nails (chemical or physical aggression caused by housework or professional conditions, use of false nails and glues.

Depending on the situation, JadeNail may give quick and visible results from the very first applications for dry and brittle nails. However, for the treatment of mycosis, numerous and repeated applications are necessary.
